

## ISO 9001:2015 Transition

This one-day training session will provide participants with insight into the content and intent of ISO 9001:2015. Participants will learn what to anticipate in ISO 9001:2015 and what changes may be required to ensure conformity.

### Areas Addressed:

- When will ISO 9001 2015 become reality?
- Setting the foundation; Quality Management Procedures, vision, mission, and objectives of the organization.
- How long a transition period after release of ISO 9001:2015?
- Implications of the New footprint, i.e. Annex SL for users.
- Change to more generic requirements.
- Change in wording: different words but same meaning. Different words with broader or more restrictive meaning.
- Are there new requirements?
- Existing requirements expressed in a new way.

### This session will also address all of the areas your organization should currently be considering:

- Understanding the concepts of the organization and its context, the needs and expectations of interested parties and how to determine the scope of the quality management system.
- The change in wording from documents and records to documented information and the implications of this change.
- Risk based thinking requirements and the interaction with corrective action and preventive action.
- New requirements for top management leadership and the competence and awareness of staff.
- Internal audit and certification implications.
