

Since 1988, NEPIRC has been working with manufacturers to improve their productivity, profitability, competitiveness and long-term viability through consultative services.

## NEPIRC to Host 2nd Annual Manufacturing Day Regional Manufacturing Showcase

Manufacturing Day is a nationwide initiative that recognizes the impact of manufacturing upon the U.S. economy, applauds manufacturing's value to communities across the nation and raises awareness of high-paying manufacturing careers. NEPIRC's Manufacturing Day events will showcase the innovations, technologies, career options and best practices that exist within today's forward-thinking manufacturers.

To celebrate this national event, the Northeastern Pennsylvania Industrial Resource Center (NEPIRC) is hosting its 2nd Annual Regional Manufacturing Showcase on Thursday, October 5th at the Radisson Lackawanna Station Hotel, Scranton. Manufacturers and businesses supporting the manufacturing community are invited to set up display tables, trade show style, to showcase their products and services. This is a great opportunity to meet manufacturers and business leaders in northeastern and the Northern Tier of Pennsylvania and learn about their products and services. Time has been incorporated into the agenda for

participants to visit manufacturer tables, network, learn about what each other has to offer and help facilitate synergies, purchasing opportunities and collaborations among Pennsylvania manufacturers.

Breakout sessions will be led by Lex Slood, Author and Motivational Speaker and Brian Slocum, Managing Director of DesignLabs at the Wilbur Powerhouse located at Lehigh University.

NEPIRC President and CEO Eric Joseph Esoda, CPA, addresses the audience at last year's Manufacturing Day celebration.

10/05/17

Regional Manufacturing Showcase

Mr. Slood is a successful manufacturing, marketing and publishing entrepreneur as well as a commercial real estate developer. He appeals to a wide range of audiences with his unique approach to a successful career and personal life, providing groundbreaking guidance, principles and a creative winning formula for operating more productively and effectively.

In addition to managing Lehigh University's Wilbur Powerhouse Prototyping Lab, Mr. Slocum teaches courses in prototyping and metalworking and advises Integrated Product Development teams. He will share his insights and expertise gained from his work in

helping student entrepreneurs create, refine, and commercialize intellectual property through the licensing or launching of new businesses.

Tickets:

\$40.00 – Event admission for one, which includes breakfast, lunch and one breakout session.

\$150.00 – Company Display Table and Event Admission for one, which includes a display table, breakfast, lunch and one breakout session.

A special MFG Day Luncheon will be held on Tuesday, October 3rd at Timeless Destinations in Wellsboro, PA. For more information or to register for either event, visit: [www.nepirc.com/events](http://www.nepirc.com/events) or call 570-704-0018.
